Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Please understand that my use of a cell phone is limited to emergency situations. I feel that it is an extra measure of security to have a telephone capability when I am travelling and might experience a road emergency. However, if the cost increases, I will no longer be able to justify the expenditure. It is not as though this is my only telephone contact with the world; I have a standard, in-home telephone service. Please do not threaten my "security blanket."

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Diane Willcox
